White Slaves In Atlanta

From the condition existing at the Fulton Bag and Cotton Mills, prior to, and at the time the strike occurred on May 20th, it would seem that some 1400 white people were held in slavery in the city of Atlanta. As an illustration, the applicant for a job was required to sign a contract before employed which says in part, “The company is to pay for such services as are actually rendered by the said employee and is not to pay for lost time arising from accident, disability or any other cause. The company may discharge him (her) whenever it shall become unwilling to retain him (her).”

Said employee agrees to make good to the company any injury to its machinery or property which may be caused by said employees negligence. Said employee states that he (she) is 20 years of age.

“It is distinctly understood that the wages for one week (a week being construed to mean wages for not less than five days) are to be always held by the company, and said wages are not to become due and payable at all, and the same is hereby agreed upon as liquidated damages, if said employee should quit...

...When the employment is terminated, the employee, if a tenant, agrees at once to vacate without further notice, and any wages due the employee may be held by the company to cover any rent or damages done.”

It would seem that the entire contract is made for no further purpose than to take away the money from the person after they had earned it, and hold them in perpetual bondage.

The Shame of the Fulton Bag & Cotton Mills

CITIZENS OF ATLANTA WHAT ARE YOU GOING TO DO ABOUT THIS?

For 8 years, Minnie B. Ware had been employed by the Fulton Bag and Cotton Mills and supported a widowed mother since a child of 10 years. Two weeks prior to the strike on May 20th, 1914, she was discharged by the Company and given no reason for her discharge. She having joined the Textile Workers organization prior to her discharge, was thought to be the reason as others had been discharged in this same manner.

Her total wage for 14 weeks was $70.00, the average wage per week being $5.91.23, there was deducted during that time $12.15 for rents and 50 cents for fines.

On June 5th, 1914, this little woman became a mother. The statement of her physician follows:

“State of Georgia,
Fulton County,
To Whom It May Concern:
This is to certify that I waited on Minnie B. Ware (51 Tennille St.) in confinement June 5th, 1914. Labor was premature and convalescence slow. I have visited her regularly up to this date (June 15th). She is still in bed not able to sit up and complaining of severe pain in her side, of which she has complained, since her confinement.”

Vindictive Persecution of Strikers

BY THE FULTON BAG & COTTON MILLS

A devoted and sorrowing son writes:
“I have worked in the mill 14 months and gave perfect satisfaction. I worked in this mill 2 months while my mother was sick. I worked in there when I did not expect to come out and find my mother alive, and then when I came out on strike they tried to frame me out and I stopped them with a certificate and then they tried to frame me up a charge against me and have me arrested through one of their employees and could not do that, and then they had a petition signed through their employees and carried it before the Chief of Police and served me with a copy of same stating that if I did not move within 5 days they would make a case against me for keeping disorderly house, because I had a girl waiting on my mother and also because the people visited us, and it terrorized my mother so much until I had to move her and she just lived 5 days after I moved her. The worrying about the papers that was served on me because she was afraid they would arrest me and I would have to leave her and on some one else to look to except me. The worrying and moving her is partly the cause of her death so soon. She was treated by Dr. M. V. Garrett, 385 South Boulevard St., Atlanta.

The dear old mother, was laid away in her grave at Hollywood, just another victim of the mighty power and oppression of the Fulton Bag and Cotton Mill.

A STATEMENT OF FACTS.

On Monday, Oct. 13th, 1913, the employees of the Fulton Bag and Cotton Mills, driven to desperation by the unfair treatment imposed upon them, struck in a body. These workers were totally unorganized. A verbal agreement was entered into and the Workers returned to work. This agreement was almost immediately broken by the Company, and members of the Committee were discharged.

It was then that some of the operatives decided to form an Organization. This was done without assistance from the International Union. From that time on up to April 4th, 1914, the Company gradually discharged the Local Officers and Members, many of them among the ablest and best operatives in the Mill.

Spotting the Company hung around the entrance of the Meeting Hall and reported the names of Union members to the Company. These Members were subsequently discharged and intimidated, so that it became necessary to carry on the Organization secretly; the discharged members only, attending the meetings, and then reporting privately to the homes of members employed by the Company.

In the meantime the Atlanta Federation of Trades endeavored to secure a conference with the Fulton Bag and Cotton Mills, a personal letter was sent to Mr. Oscar Elsas, but he absolutely ignored the communication.

On April 20th, a special meeting of the Local Union was called, at which 320 operatives joined the Union. During the following three days, eighty-three members were discharged. Again efforts were made to adjust the differences without resorting to a strike, and a Committee composed of employees of the Company and Mr. Louie Marquardt representing the Atlanta Federation of Trades called upon the Company, but were refused a conference.

On May 20th, 1914, three weeks after the discharge of the eighty-three members, 430 operatives were on strike. During the next three weeks the number increased to 791. Over 125 left the city.

The strike has continued since then with the loss of only three members and will be continued until our demands for "Justice" is recognized.

Our demands are:
1st. The re-instatement of discharged members.
2nd. The elimination of Child La-

Following upon the heels of the strike in the Fulton Bag and Cotton Mill Settlement, attention of the sanitary department was called to the deplorable sanitary condition prevailing there.

Rows of houses were found with toilets built between making it necessary for several families to use same toilet.

Relative to the condition the following report was made by a committee sent to investigate:

Report of Board of Health.
Honorable Board of Health,
Atlanta, Ga.
Gentlemen:

Your committee submits the following report on the plumbing at the Fulton Bag & Cotton Mill:

"We condemn the privy sinks now being used."

"We condemn the flooring under the showers and suggest that if they remain, they should have cement floor, and drainage."

"We recommend that a sink with water to same be conveniently installed for each apartment, both up and down stairs."

"We recommend that at least one closet be placed at each home."

Respectfully,
J. P. Kennedy, M. D. Health Officer.
C. A. Smith, M. D., Bacteriologist.
J. A. G. Beach, Chief Pbg. Insp.

A more serious menace to the health of Atlanta could hardly be conceived. This pest hole has been the breeding place for all sorts of disease and as a matter of self protection the citizens of Atlanta should see to it that it be eradicated.

You are required to use straight edges. The overseer will specify the kind used. You can secure these at the Store Room. A deposit of One ($1.00) Dollar and Two ($2.00) Dollars (according to size) is required, and when returned in good condition the amount deposited will be refunded.

A complete set of tools are required.

You will be fined 20 per cent. of the seconds on your Section.

When leaving the service of this Company whether you complete a notice or discharged, 25 per cent. of your time will be withheld at the time of settlement until all of the wretchedness of their existence. Men, Women, and little Children, thousands and thousands of them, are in a chronic state of poverty, always on the border of starvation from childhood to grave.

The attention of the citizens of Atlanta is directed to the splendid struggle being waged for the liberation of the “White Slaves” in the Cotton Mills of the South. In the City of Atlanta, Ga., in the “Empire State of the South,” where Child Labor Laws are the worst in any State in the Union, or in any civilized Country in the world, the Cotton Workers have organized, and revolted against the intolerable conditions imposed upon them by the Fulton Bag and Cotton Co., and under the direction of Organizer Miles are fighting for the elimination of Child Labor, recognition of the Union, and the establishment of a 54 hour work week.

The Fulton Bag and Cotton Co., is supported by the Southern Cotton Manufacturer's Association, and the National Manufacturer's Association and are resorting to the cruellest tactics in their efforts to break the Strike. It has been the rule of this Company to hold a weeks wage, and when the Workers struck they had from a week to nine days pay due; this money the Company declared forfeited on the grounds that the Strikers left without notice. Credit was cut off at the Store, and starvation was immediately upon them, they are being evicted from the company's shacks, and are blacklisted in the Mills, intimidated in every possible way to force them back in submission to the Company.

For weeks before the Strike, efforts were made by the Employees Committee to get a conference with the Mill Officials, but they absolutely refused to meet any Committee. Under these circumstances the International Organization of Textile Workers, the Georgia Federation of Labor and the Atlanta Federation of Trades have determined to come to the assistance of the Cotton Mill Workers, and make this strike a National issue, the success of which will eliminate for all time the disgraceful condition of Servitude imposed upon the Workers in the Cotton Mills of the South.

Much has been written in an effort to describe the abject poverty of the Southern Cotton Mill Workers, but neither tongue nor pen is adequate to describe the awful cloth of your Section has been inspected, taking from one to two weeks to inspect same.

This does not cover all the rules for Loom Fixers, but is intended to outline some of the most important ones.
